

SPONSORSHIP OPPORTUNITIES

Hosted by Opportunities Fife Partnership, FBDA 2020 will recognise the success of Individuals and businesses in Fife who excel in promoting the employment of people who face disadvantages in the labour market. The awards recognise and reward people who may experience disadvantage in finding and keeping a job due to personal issues, disability or health conditions, lack of work experience, skills or qualifications. This year's event will have the added celebration of individuals and businesses who have triumphed in unprecedented times through the Coronavirus pandemic. These awards specifically acknowledge determination, resourcefulness and originality in creating equal opportunities for all in the work place. All shortlisted nominees will be invited to attend our digital Awards Ceremony in December 2020

Media & Promotional Sponsorship

Help out our event by pushing out the adverts for the event; this includes nomination links, and event information. We would like as many people as possible to have the opportunity to be nominated for these awards; employees, employers, the works!

Sponsorship in-kind

Is there something you can do to help us with our digital event? Anything you can offer us to help promote our event or is there something you can offer our award winners in return for lots of advertisement in our literature and on the event day?

Financial Support

Support of our event can mean the world to many—allowing us the opportunity to further acknowledge and appreciate those who have worked hard despite some very difficult circumstances, including for businesses at this time. If you are able to financially contribute, our team will discuss packages and recognition with you.

Event Logistics Support

Can you help us with our streaming on the day? Is there anything you can do to help us reach a wider audience to celebrate? Reaching out to as many as we can, gives us an opportunity to inspire others in a climate where many feel demotivated. Simply helping us stream to a wider audience could be game changing for our local morale and economy.
